Product Description:

The Wilesco D141 Steam Engine is a complete workshop. The countershaft fitted under the roof, drives the circular saw, the two-wheel grinder, the drilling machine and the hack saw, like in grandpa's days. Technical details: mirror polished brass boiler, diameter 5,5cms, length 13,5cms, boiler capacity 320ccms, with water gauge glass. Boiler house true to life coloured and copper-plated with embossed brick type walls, two foot-bridges with ladder. Double-acting reversible brass cylinder with flywheel, spring loaded safety valve, pressure gauge, flywheel of 8cm diameter with grooved pulley, steam jet oiler. All condensed water is collected in a sliding tray below the smoke stack and the waste steam is exhausted through the smoke stack. Manufacturer: WilescoModel: D141 Steam Engine
