Category:

Ready to Run RC Tanks

Product Name:

RC Battle Tank Leopard II with airgun

Product Movie URL:

Product Description:

The RC Battle Tank Leopard II with airgun is a well detailed model radio control tank, 16 inches long, with 2 speed forward, reverse and turn control. The turret rotates left or right while the gun barrel elevates up and down. Gun fires 6mm plastic bb's, range approx 25 metres, mag capacity 40 bb's. Includes radio control, battery, charger and target. As 3 separate frequencies are available, the 3 tanks in the series can be operated at the same time for some great battles. Fight for control of the patio with this 25m range bb firing battle tank! Manufacturer:
