Product Description:

The Airfix 1/72 German 'E' Boat plastic model kit recreates this real German Navy Torpedo Boat in great detail. This plastic ship model requires glue and paint to finish. The German E-Boat was a high speed torpedo boat used by the German Navy during World War II. Not only were these boats fast, but heavily armed, very seaworthy and far in advance of the British Royal Naval coastal forces. Manufacturer: Airfix
Model: 10280 German 'E' Boat Scale: 1/72
