

Starter Class Compressor

Category:

Airbrush Compressors

Product Name:

Starter Class Compressor

Product Movie URL:

Product Description:

The Revell Starter Class Compressor is an oil-free piston air compressor. It is small and portable and works best with our starter class airbrush. The Revell Starter Class compressor is ideal for the beginner who wants a reliable introduction to the airbrush skill. The Starter Class compressor does not have the standard 1/4" fitting so is NOT COMPATIBLE WITH AZTEK AIRBRUSHES. Specifications Type: Oil-free piston compressor (220-240 V/50 Hz/90 W) Maximum pressure: approx. 3 bar Output in litres of air: approx. 11.5 l/min. Noise level: approx. 57 db Extras: Pressure regulator, carrying handle Connectors: Fitted as standard with the connector for the hose (38230) of the 'starter class' spray gun. The hose is not included in the set. Manufacturer: Revell Model: 39142 Starter Class Compressor
