Product Description:

The Tamiya XB Sand Viper is the latest 1/10 scale Ready-to-Run 2WD buggy to be released within the DT02 radio control car range. This radio control car comes completely assembled and ready to run with the battery and charger included. Perfectly balanced bath-tub frame mounts, R/C unit and with the battery flat and to the center of the chassis for optimum weight balance makes this a perfect off roader. The Tamiya XB Sand Viper has 4-wheel independent double wishbone suspension and features full stroke for consistent and reliable operation on off-road surfaces. Masterfully painted and marked polycarbonate body features sleek design evoking a desert snake. The tamiya XB Sand Viper is fantastic for any radio control buggy fan. Manufacturer: Tamiya Model: 57755 XB Sand Viper Scale: 1/10

Product Specification:

Tamiya Sand Viper Specifications Fully assembled 2WD off-road buggy Sand Viper pre-painted with stickers pre-applied. 4-wheel independent double wishbone suspension secures stable running. Features wide grooved front tires and spiked rear tires for excellent off-road ability. Differential gearbox is fully sealed from dirt ensuring a long life of smooth handling. Powered by Type 540 electric motor. Factory finished kit includes Expec SP R/C unit wheel-type transmitter and TEU-101 electronic speed controller (batteries and charger sold separately). Lightweight polycarbonate body.
