Product Description:

The Hobbyzone Aerobird Swift is now the fastest, most aerobatic Hobbyzone R/C plane currently on the market, taking all the technology and thrills of the Aerobird Extreme and improving them to the next level. The Aerobird Swift is designed with advanced hobby pilots in mind, offer 3-channel full functionality, with aileron, elevator and throttle control, allowing pilots to perform death-defying stunts. A powerful 480 motor gives you the power you need, and the new wing design means the Hobbyzone Aerobird Swift flies smoother and responds better. The Aerobird Swift also comes with Hobbyzone's X-Port technology, so you can use the exciting plug-in accessories, including the Aerial Drop Module to drop bombs or a parachutist. As all Hobbyzone radio controlled planes, everything you need to get flying is in the box, including the battery for the transmitter. The Hobbyzone Aerobird Swift is the perfect introduction to aileron control, and gives you the speed and manoeuvrability to satisfy every advanced hobby pilot. Manufacturer: Hobbyzone Model: HBZ7200 Aerobird Swift Colour: Yellow Click Here to view details of the Hobbyzone & Parkzone Warranty. More about the Hobbyzone Aerobird Swift The new re-designed 3-channel, reusable, FM radio system allows for superb control and manoeuvrability through throttle, aileron and elevator control. Two flight modes, High Rate and Low Rate, are selectable from a switch on the transmitter and allow you to control the level of difficulty dependent upon your skill level. The Aerobird Swift comes with two lightweight aileron servos help to minimize weight and increase manoeuvrability. Durable, steel wire pushrods for more precise and consistent control. Lightweight, yet durable, foam and plastic components maximize aerobatics while minimizing weight and crash damage. And should you come down to earth with a thump, a soft, resilient rubber nose cushions the force of impact and decreases damage from a hard landing. Main and rear landing gear enable you to land on asphalt, concrete or short grass.

Product Specification:

Hobbyzone Aerobird Swift RTF Specifications: Wing Span: 48 in Overall Length: 34 in Motor Size: 480 Power Radio: 3 channel proportional FM Trim Scheme Colors: yellow, red, black Speed Control : Power FET proportional ESC/RX Recommended Battery: includes 7 cell 8.4V 1000mAh Ni-MH pack Aileron: Proportional Elevator: Proportional Throttle: Proportional Approx. Flying Duration: 10-12 minutes Transmitter Range: 2500 ft. Available Frequencies: 6 channels on 27 MHz X-Port: yes Charger: 1.2A Variable Rate DC Peak Landing Gear: Front landing gear with foam wheels with optional rear gear
