Product Description:

This Scalextric C1200 Ultimate Endurance X4 Set is a fantastic addition to an existing collection or a marvellous first set. The Scalextric set features an extended offset figure of eight layout measuring 280cm X 280cm with a track length of 855cm. Also in the set you can expect a lap counter/timer as well as crossover sections and a bridge section. The easy fit track system allows you to get setup and racing in no time at all with minimum fuss and effort. The scalextric slot racing cars featured in this set include the Aston Martin DBR9 and the Jaguar XKRS, both finely detailed and very rewarding to race! The Scalextric C1200 Ultimate Endurance X4 Set can have any of the Scalextric accessories range added to it whether it is to make the layout bigger or just to add new cars to your collection, this set can be transformed into any racing circuit layout big or small. The great thing is you don't have to throw out any of your classic track. When used with the Scalextric conversion straights they can be used in conjunction with the new easy fit system.
