Product Description:

The Tamiya R/C German Panther Type G Full Option in 1/16 scale is a radio control model tank kit. This tank shows that Tamiya is peerless when it comes to 1/16 RC Tank products and this is the ultimate in realistic indulgence, and with the German Tiger I and King Tiger already released, it is only natural that we now add the famous Panther Type G to the lineup. About 1/16 R/C German Panther Type G Late Version Sleek form of what is considered by many as the best tank of WWII accurately reproduced. Barrel of the long 75mm main gun replicated in aluminum. Durable torsion bar suspension featuring new road wheels and sprockets with pre-assembled link tracks for excellent cross-country performance. Dual gearboxes can operate together or individually for realistic tank movement. Includes DMD Control Unit (T-03) and DMD Multi Function Unit (MF-01) to put turret rotation, gun elevation, and light and sound action at your fingertips. Onboard speaker reproduces engine running sounds and 2 types of engine starting sounds (electric starter and crank starter) recorded from an actual Maybach HL230-P30 engine. Main gun and machine gun firing sounds accompanied by LED muzzle flashes. Install ITEM 53447 1/16 R/C Tank LED Battle System (sold separately) for exciting 1-on-1 or team battles with other similarly equipped Tamiya R/C tanks. Despite its large scale the model has been thoroughly and accurately reproduced.
