Product Description:

The Tamiya Scania R470 Highline in 1/14 Scale is a radio controlled truck. About the Model 1/14 scale electric R/C assembly kit of the Scania R470 Highline. Aerodynamic body is precisely reproduced and front grill features mesh material for realistic look. Faithfully reproduced cabin tilts forward separately from fenders, just like on the full-size truck. Fender interiors and exteriors are fully depicted for the ultimate in accuracy and realism. Durable ladder frame chassis consists of aluminum channel and resin cross member. Kit-included coupler enables use of any of Tamiyas currently available 1/14 scale trailers. Includes assembly type 3-speed transmission. Use of separately available 4-channel transmitter allows gear shifting during running. Front and rear suspension consists of metal leaf springs and coil spring dampers. Durable die-cast metal front axle is float mounted on leaf spring and damper. Resin rear axle features differential gear. Propeller shaft transmits power from front mounted motor to rear wheels. Pin type propeller shaft joint reduces friction loss. Type 540 motor included. Separately requires battery, charger, and transmitter (4-channel transmitter highly recommended). Requires (unless stated differently above) Radio: 4-Channel with servo(s) Battery: 6-cell flat with standard Tamiya connector Charger: AC/DC timed or peak for 6-cell battery Paint: Polycarbonate for spare body Misc. Items: Building and track equipment Manufacturer: Tamiya Model: 56318 Scania R470 Highline Scale: 1/14
