The Forces Of Valor 1/32nd scale German Panzer IV AUSF.G diecast model is an accurate recreation of the real-life vehicle as deployed on the Eastern Front in 1943. The Panzer IV Ausf. G was a continual improvement on the formidable Panzer IV tank series. The Ausf. G featured a more powerful and longer barrelled 75mm gun that provided a stronger counter to the improved Russian T-34. We highly recommend the Unimax Forces Of Valour German Panzer IV AUSF.G diecast model.
