Product Description:

The Thunder Tiger Pro 18 BXP PRO series rc car engine is equipped with dual-ball bearings, Schnuerle porting, piston and cylinder and mixture control carburetor. Designed to achieve the easiest operation and max performance again and again. The PRO-18BX a big block engine creates incredible horse-power more than the previous .15 engines, which is the best choice for the out-law contest. The PRO series are manufactured by automated computer-controlled machinery, using the highest quality materials. State-of-the-art CNC manufacturing techniques produce not only high performance and reliability but a product that looks and performs better. Precision mixture control carburetor makes adjustments simple. Built-in recoil starter "X" version. The same one-piece reinforced crankcase and the same mounting dimensions, makes it a drop-in easy to upgrade. Thunder Tiger Pro 18 BXP Features: Built-in recoil starter Top grade CNC equipment, state-of-the-art technology are used Improved mixture control carburetor which makes adjustments simpler Improved quality; ISO9001 Certified which guarantees the maximum power and performance Smooth running and long lasting power plant with front and rear ball bearings Dual-ball bearings, Schnuerle porting, piston and cylinder and mixture control carburetor Designed for both beginners and experienced modelers Thunder Tiger Pro 18 BXP Specifications: Displacement: 2.97 cc. / 0.181 cu. in.
