Family Fun Games

Product Name:

Continuo

Product Movie URL:

Product Description:

Continuo was created by the bridge player Maureen Hiron. Continuo is a game with a perfect blend of skill and luck. A 5 year old can play on equal terms with all other ages, providing equal enjoyment to all. Up to 5 can play together, yet the game can prove equally pleasing as a solo patience puzzle. It can be understood in seconds even by the very young and transcends all language barriers. No two games play the same, giving it everlasting life. That's a lot of claims for one small game, yet it has all proved to be true. After 6 weeks of being on sale, Continuo became Britain's top-selling game. It has gone on to sell in over 40 countries and to date has sold over 6 million sets. Ages 5 to 105!
