Product Description:

The BladeRunner Black Ghost micro rc helicopter is only 16cm long, and represents the latest development of the original best selling indoor R/C helicopter, that is easy and fun to fly in the smallest of spaces! Incorporating BladeRunner patented rotor technology, utilising two contra-rotating main rotors with co-axial rotor heads, for remarkable inherent stability. Available on two different Infra Red bands to allow two models to be flown together, this miniature marvel is supplied completely assembled ready-to-fly. Simply fit six 1.5v AA Alkaline Batteries into the Transmitter/Integral Charger for impressive indoor flights of 5 minutes or more, powered by a lightweight Lithium Polymer battery that will recharge in just 20 minutes! With a tough foam body and a super self-adhesive Decal Sheet provided to customise your own Chopper, the Black Ghost has a bright green LED Search Light, and features fixed forward movement with proportional throttle for precise control. The BladeRunner Black Ghost Technical Specification Product Dimensions: Dual Main Rotor Diameter 140mm (5.5") Length 160mm. (6.5"). Rear Rotor diameter 30mm (1.2") Product Weight: Only 16g, including Flight Battery. Rechargeable Flight Battery: High capacity integral Lithium Polymer. Charger: Convenient Integral Charger built into Transmitter. Simply plug in and charge, with easy to use connections. Charging Time: 20-30 minutes for full charge.
