Product Description:

The Silverlit I-Bird Ornithopter radio control flying bird is sure to be the latest craze in radio control flying. This I-Bird is one of the world's smallest radio controlled Flying Birds in the form of an ornithopter. Also in the series are the I-Fairy and I-Wings. The I-Bird is very robust with a flexible foam body, it comes complete with a lightweight lithium polymer battery that charges up from its integrated charger/controller gives approximately ten minutes of flight time from a 20-30 minute charge. Requires 6 AA alkaline batteries for the remote control unit (not included).
