Category:

BBR Diecast Model Cars

Product Name:

1/18 Ferrari F430 Coupe 60th Anniversary Red Limited Edition

Product Movie URL:

Product Description:

The BBR Ferarri F430 Coupe Red is a diecast model car in 1/18 scale.

It's not just an 1/18th scale model but a real hand made work of art - a must for any model collection. It has taken 2 years of development, much innovation and several modifications to release such a masterpiece. Every part has been perfectly reproduced in 1/18th scale. The body is diecast with the other pieces worked in steel, aluminium, plastic and rubber. The working suspension is accurate to the smallest detail. The rear suspension alone is made up of 54 parts. The engine is made up of 58 fine detailed parts with even the soldering on the chassis undertaken by hand. The spark plug wires are made of soft rubber, as is the timing belt. The two seats are made up of 36 parts of which 8 are tampo-print. The seats and door panels are made out of a plastic which has a special paint technique which creates the real feel of leather. In the packaging you will find a small magnet tool which will allow you to open the petrol tank and the passenger glove box where the car documents and torch can be found. In total there are 800 components including all the details and tampo print ancillaries.~This exclusive colour version will come with a special outer sleeve with Kyosho exclusive stickers and details.~There will be two further colour variants, Russo red and silver stone, which will be announced at a later date by BBR.
