Product Description:

The Tamiya Gravel Hound is an easy to control and perfectly balanced 1/10th scale R/C car for off-road running and jumping. The DF-02 chassis features longitudinally mounted motor and battery, and powerful Type 540 motor combined with 4 oil dampers. The Tamiya Gravel Hound is equipped with a sleek design polycarbonate body ensuring durability combined with a cool look. This is the perfect buggy for all radio control off-road fans. More about the DF-02 Chassis The brand new DF-02 chassis is a shaft-driven 4WD chassis featuring a longitudinally mounted motor and battery. Featuring an overall lower center of gravity, the DF-02 displays superior stability and handling. The chassis also features a wide bathtub design that easily accommodates battery and all R/C mechanism. Semi ball bearing gearbox is fully sealed keeping dirt and stones out for easy maintenance and long lasting performance. Oil dampers and 4-independent wheel suspension means tough off road running and fearless aerial action. DF-02 chassis features turnbuckle tie-rod for easy toe adjustment and oil dampers mounted with 5mm ball connectors. The Gravel Hound is the perfect solution to enjoy off-road racing. Electric Kits Require: (unless stated differently above) Radio: 2-Channel with servo(s) Battery: 6-cell flat with standard Tamiya connector Charger: AC/DC timed or peak for 6-cell battery Paint: PS for Polycarbonate/TS for ABS Misc. Items: Building equipment Manufacturer: Tamiya Model: 58328 Gravel Hound Scale: 1/10
